We use the sport of squash as a catalyst to transform young lives. Our program begins by selecting children in the 5th grade, educating them with our four pillars (I-CARE Values) and continuing to transform their lives for six years through high school graduation and then 6 years through college and post-graduate careers. During these fundamental years, we provide guidance for building essential life skills to becoming responsible and honorable adults. By creating a culture of healthy lifestyle and exercise, students find the discipline and dedication to unlock their potential and achieve their goals.
